Plans Being Made To Start County Relief Work Under New Agency And Directors

WASHINGTON, Sept. 4.—A report by Kendall K. Hoyt of the Tennessee Valley Authority said tonight the Federal Government was spending or will spend approximately \$106,000,000 in the Tennessee River basin states.

Of this amount, \$50,000,000 will be spent by the Tennessee Valley Authority in its projects at Muscle Shoals and Cove Creek.

The series of revival meetings being held at the Church of Christ in Elba are attracting good congregations at each service. W. T. Smith, pastor of the First Church here, is doing the preaching and is bringing his hearers some fine gospel sermons.

A singing service is being held by Mr. Rauden Bullard of Highland Home. He is a spiritual singer and this part of his service is spent Monday evenings from 7 to 9 p.m. in the Tabernacle. Services are being held at 11:00 o'clock each morning and at 7:45 each evening.

The agricultural credit and administration of the new county relief committee are J. B. Byrd, W. W. Ham, W. J. Brown, P. G. Mathis and E. C. Brooks. According to our information this organization Monday and elected J. B. Byrd chairman and W. W. Ham, secretary.

According to the plans, Hon. Thad Holt, director of the Alabama Relief Administration, will appoint a seven member board consisting of a disbursing officer and other officers who will have full charge of the relief work throughout the country. These officers will under the direction of the new Citizens Relief Committee.

The new relief organization in each county will be responsible for the expenditure of the \$7,500,000 per month which will be spent in the county from the Emergency Relief Fund, recently created by R. F. C. funds.

The Commissioner of Court of Justice will appropriate \$2,500,000 monthly from the gasoline tax funds, which will be spent Saturday a sum of money which measured 8 feet and 1 inch in length. This is the new kind of relief work which has been started in this section and which will go for relief work.

It was stated that representatives of the commissioners of the relief were in Montgomery Wednesday for a conference with Mr. Holt, State director, in an effort to get details worked out on all plans made for the administration of the relief work. It will be remembered that this work has been closed down for the past few weeks, and many people are wondering what is on for this existence are now suffering. As stated above, if the plans are approved it is hoped that work might be resumed in the county.

Mr. Grimes Brings Fine Stalk Of Kiana Cane

Mr. E. A. Grimes, well known farmer of the Curtis community, will be the guest of the Elba school Saturday a stalk of cane which measured 8 feet and 1 inch in length. This is the new kind of relief work which has been started in this section and which will go for relief work.

It was stated that this representative of the commissioners of the relief were in Montgomery Wednesday for a conference with Mr. Holt, State director, in an effort to get details worked out on all plans made for the administration of the relief work. It will be remembered that this work has been closed down for the past few weeks, and many people are wondering what is on for this existence are now suffering. As stated above, if the plans are approved it is hoped that work might be resumed in the county.

One resolution stated that the Alabama system of taxation needs further revision in order that the inequitable burden borne by the financial obstacles to agriculture may be overcome.

Another resolution states: "We are committed to a currency system in which the value of the dollar would have a stable purchasing power in terms of the nation's commodities. Under such a system farmers would not every few months be confronted with the problem of whether to sell wheat at a 10-cent loss when man and a 10-cent debt when due."

The farmers also directed their efforts to making relief work more effective for the benefit of the people in the County. It has been a pleasure to labor with them.

Sincerely subscribed,
MRS. E. H. CRUMPTON,
Social Service Director,
Coffee County Child Welfare Department.

"...writes of THE MASTER EXECUTIVE"

Suspending a week-to-week inspiration for the busy hurried who will had every human trial paralleled or experienced of "The Man Nobody Knows."

NUMBING GRIP OF ANCIENT CREEDS

Some people asked if Franklin Roosevelt had had experience enough in government to handle the "problem." To intend the words in this same sense is to assume the real significance of his life. He was in all points a man who handled successfully affairs of a great state like New York. He had about the best preparation he could have as the "financial man," of course. The conception of character which Theology has given makes any such idea impossible.

He was born differently from us all. He was born into the world, into the world of a Father's business, but the business itself is far larger than o r i e n tatives.

If human life has any significance, that God has set going here, it is to make us better men, superior to the circumstances in which we are born.

It is frightfully hard to find the right kind of human talent or aptitude. Let us touch once more on the high standard of achievement which today the rancher on the Pulkhan may call out: "Everybody get ready."

A recent survey by an organization called Building Cities, savings 24.7 per cent less in Alabama than in the North, due to cheaper labor, cheaper cost of construction, lower taxes, lower cost of living, long and expensive freight hauls. These facts are worth investigating.

It is one thing to talk about something inside him carried him forward, the something which has won him to so many small town boys that he can't plan for himself in the world which lies beyond the door and died on a cross. He talked of Next Week: Responsibilities of Success.

HOSE CABS IN NEW YORK

The nation's metropolis seems to be the first to take up new things and the last to discard them. It is said that New York is the first to start a political service prayer. And when any 500 physicians could tell them more than they will ever find out otherwise,

It is said that 500 psychologists are trying to solve the child problem.

And 500 dentists could tell them more than they will ever find out otherwise,

White testimony in court at

Rush, Eng., Mrs. Rose Mayes recited a remark by the judge and threw a Bible at him.

Pathfinder tells a sad story which nevertheless ends in a hopefully happy ending side. It contains a fashion-logue recently issued by a fashion-able "finishing school" for girls.

An attractive specimen of the printer's art, intended to appeal to the eye as well as to the pocketbook of wealthy parents to whom it was sent.

All the advertisements which sell were in fact most convincing, the claims were curiously well stressed, and several "extras" were suggested to make the "fluids" of life go down easier.

One of the extras which on \$200 additional was required was a course in "Voices and Personality."

What the school people and the printer said when the error was discovered is not recorded.
